CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AND FOR THE RELIEF OF PATIENTS IN ADVANCED STAGES OF CONSUMPTION.

Many years of trial, tested by unparalleled confidence in its medicine, has won for it a reputation and influence by far exceeding the most sanguine expectations of its friends. Nothing but intrinsic merit, and the unquestionable benefits conferred on thousands who suffered, could originate and maintain the reputation it enjoys. While other remedies thrust upon the community have failed and been discarded, this has gained strength every trial conferred benefits on the afflicted, they can never forget, and produced cures which seem remarkable to be forgotten. While it is a fraud upon the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral is not only a general blessing, but do not invariably cure the maladies for which it is employed. As time makes these facts wider and better known, this medicine has gradually become the stay and reliance of the afflicted from one end of the American peninsula to the palaces of European kings. Throughout this entire country, in every city and village, and in every hamlet, *Cherry Pectoral* is known as the best remedy extant for diseases of the Throat and Lungs—and in many foreign countries it is coming into extensive use, employed by their most intelligent physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, *Cherry Pectoral* is introduced and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice as the surest remedy their attention can direct for the more dangerous affections of the lungs. Also in milder cases and for children it is safe, pleasant and effectual to cure. In fact, some of the most flattering testimonials we have ever seen have come from parents who have found it efficacious in diseases particularly incident to childhood.

Cherry Pectoral is manufactured by a practical chemist and every ounce of it under his own watchful scrutiny and care. It is sealed and protected by law from counterfeits, and can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which time has repeated and countless cures proved itself to be, and trust by great care in preserving it with the chemical accuracy of nature's strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted the remedy that will do for them all it can possibly do.

PREPARED AND SOLD BY J. C. AYER, PRACTICAL AND CHEMICAL LABORATORY, LOWELL, MASS.

For sale at wholesale and retail by S. GRAHAM & CO. and H. H. HAY & CO., Bangor; W. Emerson, Aug. Gilman, Gilman & Co., Portland; Dr. Bradley & Co., Saco; Wm. O. Pike & Co., Biddeford; S. Nason, Hampden; and by druggists generally throughout the State.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON.*

No. 22 State Street, . . Boston.

IN 1849 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of 37

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier* he continues to procure them free of expense—to prepare Caveats, Specifications, Assignements and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *literally* explaining their inventions and so describing in respect to them, *matters in general, of paramount importance in order to obtain correct descriptions and claims.* The experience of sixteen years practice, an extensive collection of rare works, documents, &c on mechanical subjects, the Patent Laws, and patents of different countries, collected at this office during the long time this office has been established, together with records here kept of inventions patented at Washington, enable the subscriber to afford inventors ample means of procuring Patents, assistance and information such as their respective rights may be in need of at present.

R. H. EDDY, Solicitor of Patents.

"WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor of inventions. To those few, if any, whose cases he prosecuted, whether so much success in that capacity, and there were many who came to us with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of aiding their applications—or a surer to secure for them as early and favorable consideration at the Patent Office. NEW MUSIC BOOK.

THE HAHPSICHORD:

OR, UNION COLLECTION OF SACRED MUSIC,

BY LEONARD MARSHALL AND HENRY N. STONE

TEACHERS OF MUSIC, BOSTON.

THIS work is the *most complete* collection of Sacred Music ever published, containing about five hundred tunes in upwards of *eighty* different meters, besides Chants, and more than *sixty Anthems* and set pieces adapted to every occasion of divine worship and public interest, such as Dedications, Installations, Ordinations, Baptisms, Funerals, Thanksgiving and Fast Days, Opening and Close of Service, Patriotic and Temperance Celebrations, &c., the whole forming a book of three hundred and eighty four pages, of more than usual size, and in large and elegant type. All its features have been perfected with the greatest care, and under the immediate supervision of the editors. But the number of pieces is not the only recommendation of this work—reliance is placed mainly in the fact, that the music will bear examination, each tune having been thoroughly digested and made not to fill up the book, but to belong.

Most of the music in this book is new to the American public; and selections are made from Handel, Haydn, Mozart, Neukomm, Rossini, Russell and others.

Also, FIRESIDE HARMONY, a collection of Glees and part songs, either of original or adapted from the German, and never before published in this country.—By Wm Mason

Professor Russell's Reading Books, which have been introduced into more than 500 towns.

The WHITE SLAVE, a book of thrilling interest, on Slavery, with eight engravings. Agents wanted to sell this last named book, who can make good wages.

Volcano Quartz Mining Company,

Volcanoville, El Dorado Co.,

CALIFORNIA.

BOOKS for subscription to $75 000 of the stock of this company are now open at the office of the Company, 78 BROADWAY, New-York.

The uncommonly rich claims of this company hold out inducements to those who are disposed to invest capital in quartz mining in California, not surpassed, if indeed *equaled*, by those of any other company in that State.

The extraordinary richness of our quartz, as was witnessed by *thousands* at the late *Fair of the American Institute*, and the extent of our claims, together with the peculiarly favorable location for economical working upon a large scale, will assure the *most ample* and *satisfactory* returns upon the capital invested.

It is well understood by practical men that, with machinery working *twenty tons* of quartz, paying *two cents* per lb large profits will be realized upon each day's work. It is the intention of the company to obtain machinery sufficient to work *fifty tons* per day, and to work it in the most economical manner, by which they feel confident of being able, from their rock which will yield from *two cents to twenty dollars* to the lb to make returns to their shareholders which will not only satisfy, but surprise them.

It will be seen by reading the pamphlet containing the *charter* the laws of California, and the details of our plans of operation, that our estimates are based upon *two cts* per lb and the expenses of working the mill are put at the present *high prices* for labor, while it is well known to all who reflect upon the matter, that as the cost of labor shall be reduced, the income will be materially enhanced.

If we work 40 tons per day, and get *two cents* per lb it will yield $1600, while *three, four, or five* cents per lb would give a proportionate increase of receipts, the expenses of working the mill would not be increased a dollar, and will be less than $470 a day.

Subscriptions can be made by mail, enclosing *ten* per cent on the amount of the balance, *twenty* per cent to be paid on the 29th of Nov next, and *seventy* per cent on the 29th day of December next when certificate of stock will be issued.

Pamphlets containing the statutes of California in relation to corporations, the rules and regulations of our location, the charter and by-laws of the company, together with much other interesting and useful matter, including a map of a portion of the northern mining region, may be had gratis at the office of the Company, No 78 Broadway, or by mail on application (postage paid)

MONDAY, DEC. 13, 1852

☞ The plan of the Commissioners of Massachusetts for disposing of nearly two millions of wild land in this State in scattered parcels, and jumbled together in six sections, with little or no regard to their compactness or vicinage, and with only a few days in which to examine the lands for the purpose of ascertaining their value, has attracted attention in Boston, and the Journal is out with a strong and forcible article against the sale.

The plan of the sale as shown by the advertisement of the Land Agent—the fact that the advertisement was quite limited in its rather obscure publication—the certainty that it was a sale to the highest bidder by the Commissioners, and not to actual purchasers, the time not being sufficient for any one to acquire information, lead us to regard the whole transaction as one which if persisted in, was intended for the special benefit of some parties, who meant to own the whole in the gambling hope of getting something handsome out of it.

The Journal closes its article with these just and common sense views, which we should suppose would arrest the attention of the Massachusetts Land Agent and all concerned, and cause them to recede, unless they are so deeply in a sort of gambling operation that they cannot extricate themselves.

"It may be good policy to sell these lands all at once—on that point we are not prepared to express an opinion at this moment—but it is at least them be fairly and wisely sold. Let them be divided into twenty sections instead of six. Let the sections be contiguous tracts, and let three months instead of twenty days be given for examination. By this mode the number of competitors will be increased, and the bidders will know what they are bidding for.

If the lands are sold under the present advertisement they may bring half their value, and somebody will get and keep a great bargain; or they may bring double their value, and the purchaser will, some time or other, get an abatement of fifty per cent., as other purchasers have before received in cases of single townships.

One thing is certain—any commissioners who make a sale, and any Governor and Council who ratify a sale under such circumstances, will be sure to incur the popular odium, whatever may be the price obtained; for all those whose bids are rejected will unite in declaring that their property has been sacrificed because sufficient time has not been given for examination, and they probably will not be far from the truth for who will make an offer with such a lack of definite knowledge as we have shown to exist, without putting it so low as to be very sure he is on the safe side of the hedge.

We hope the Commissioners will re-consider their decision, and if they do nothing more, will extend the time for proposals two or three months at least."

☞ The Halifax, N. S., papers state that heavy falls of snow have taken place there and in various parts of the Province. So violent was the storm on the 24th ult., that the telegraph lines between Amherst and Sackville, a distance of only nine miles, was broken in 60 places.

Snow has fallen to the depth of four feet on a level in Pictou, seriously retarding the mails. The British brig Ottowian, Pike, from St. John, N. F., for Boston, with a full cargo of oil, hair, &c., has been lost on Sable Island. Particulars not given. Cargo insured abroad.

☞ Mr. Kinney one of the editors of the Newark Daily Advertiser writing from Genoa, says that Uncle Tom's Cabin is producing a mischievous influence against the United States all over Europe. Everybody reads, cries over, and praises it, while, under the excitement our country is denounced without reserve or discrimination, and with a bitterness to which, the writer herself is a stranger.

☞ Two or six of the numerous popular lectures advertised in the several cities appear to be of a practical character or suited to the wants or the tastes of the masses of the people. They seem rather designed for and suited to critical scholars and distinguished literary people. But fashion rules the hour, and such lectures are fashionable. By the by people will demand and see are something more substantial and better adapted to their state, and more useful to them.

Dodge's Literary Museum.—This excellent paper commenced a new volume last week. It is enlarged with a new illustrated heading, and contains besides its usual interesting variety, the first chapter of an original $500 prize tale, entitled "The Faithful Slave." Each number will contain several well executed illustrations. The Museum deserves the popularity it enjoys.

☞ Intelligence has been received of the decease of four missionaries, as follows: Mrs. Morgan, connected with the station at Solonica; Rev. Rollin Parker and Mrs. Porter, connected with the station at the Gaboon, Africa; and Mrs. Pierson, connected with the Choctaw mission.

☞ The sloop of war St. Marys, Magruder, has arrived at Philadelphia, after a cruise in the Pacific. She was absent twenty-seven months, during which she sailed 75,000 miles. The officers and crew are all well. She lost only two men during the entire cruise,—one from consumption, and the other from dysentary.

☞ The carriage-shop of John Jones, in Brewer, was discovered to be on fire about 12 o'clock on Friday night. The flames were extinguished without damage. The fire was set in the body of a wagon in the shop, by some incendiary.

☞ We learn that several of the crews and teams engaged in lumbering have been obliged to leave the woods on account of the excess of water, and the softness of the soil on the meadow land. It is a bad time now for those engaged in lumbering.

☞ Mr. Thackeray, in one of his recent lectures in New York, said he thought Goldsmith's "Humphrey Clinker," the most laughable story that had ever been written across the act of reading began.

☞ An Irish paper's review of Uncle Tom's Cabin says: "Mrs. Stowe's work is a book which, if it does not make a man laugh heartily, will make him cry heartily."

☞ An Irish paper says that seven of the passengers of the ill-fated steamer Arctic, which was lost in a collision off the coast of Newfoundland, on the night of the 27th of September last, have been saved.

A Sequel to The Female Jesuit; containing her previous History and recent discovery. By Miss S. Lowe. New York: M. W. Dodd. 1853.

Those who have read the Female Jesuit, or the Spy in the family, will need nothing more than the announcement of this book, for them to secure a copy. The dark shadows which rested upon the true character of the surmised Jesuit, were quite sufficient to make one desirous of knowing more upon the subject, and here it is.

The work is for sale at R. F. Duren's Bookstore.

Light in a Dark Valley. By Henry A. Rowland, author of "The Path of Life." New York: M. W. Dodd 1852.

This is a neat volume of one hundred and seventy-eight pages, in which the author attempts to show to them the false principles which lead them to their neglect of the gospel and the rejection of those points of religious belief and practice which he deems essential to salvation.

Mr. E. F. Duren has this work for sale.

☞ A fact not generally known has come to light, namely, that the Hon. Pierre Soule, of Louisiana, whilst on a visit to Spain in 1846, sounded the Spanish authorities with respect to the purchase of Cuba, which, though not officially communicated, led to the steps taken by Mr. Polk's administration.

☞ There has been some talk about Congressional obsequies to Mr. Webster; but the Massachusetts delegation, it is said, will yield precedent in Mr. Legare's case, who died in 1843, as Attorney General and Acting Secretary of State. His death was not noticed by Congress, and accordingly Mr. Webster's will not be.

☞ It is said that D'Israeli, in accounting for the plagiarism of which he was guilty in his eulogy on the Duke of Wellington, states that he felt so little enthusiasm in his subject that he found it impossible to *drop Thiers* while making his speech.

☞ Mr. Chickering, the piano-forte manufacturer, proposes to commence the erection of a mammoth structure, which shall be fire-proof, on the site of the manufactory destroyed by fire a few nights since.

☞ A late Paris paper acknowledges the reception by Mr. Vattemare, of a live wild cat, sent him by Gov. Means, of South Carolina. The animal has been domiciled in the *Jardin des Plantes*.

☞ We learn that for the remainder of the season, the steamer Boston, will touch at Portland every Thursday, on her trip West.

☞ Ten young ladies recently took the veil in Toronto, as Sisters of the Orders of Saint Joseph and the Ends of the Loretto.

Another Highway Robbery.—We learn that Mr. Jordan was knocked down by two ruffians on York street, at about 7 o'clock last evening, who succeeded in getting his watch but not his money. We do not learn further particulars. It was on this street that Nagle and Tebbetts now under sentence to the State Prison, committed their robbery two weeks since.—[Mercury of Saturday.

Mr. Webster's Opinion of Kossuth.

Professor Felton, in an article in the Whig Review, gives an interesting account of a conversation he had with Mr. Webster a few weeks before his death. In this conversation the following was the language which Mr. Webster held towards the great Hungerian orator and patriot, Kossuth:

"He spoke of Kossuth's eloquence with admiration of its beauty and ingenuity. He thought his genius wonderful, and his resources extraordinary, but that he was rather an enthusiast, possessed of the idea that he was born with a mission to fulfill, Shan't a statesman, that his political ideas were not well defined, nor fixed, nor consistent, that he was doubtless a sincere lover of his country, but was a poet, rather than a sound reasoner on affairs of state and the condition of the world."

Baltimore, Dec. 10.

We have received Texas dates to the 30th ult. It was rumored that Wid Cat, the Comanche Chief, had joined the revolutionists against Matamoras, and was endeavoring to obtain recruits amongst the Americans.

CONGRESS.

Washington, Dec. 9.

In the Senate. Mr. Walker appeared to-day. The Chair laid before the Senate a document containing the accounts of the United States Treasurer; also from the Interior department, showing balances of appropriations for the department remaining unexpended.

Laid on the table and ordered to be printed.

Mr. Hous, on moved that the Committee on bills of the last session be authorised to act until the Committees are regularly appointed.

Mr Calebs moved his resolution, respecting the rule that the Senate will not adopt any ceremonies in cases where members of Congress died during the recess, which are usually adopted in cases where members die during the session, was taken up. He urged the repeal of the rule. He thought that the Senate ought not to have a solemn resolve on the records, that it will be indifferent to the blows which death might strike among the members during the vacation.

Mr Cass thought the rule was a good one when adopted, and he could see no reason now for its repeal.

The resolution was rejected—*yeas* 16, *nays* 20.

Ordered, That when the Senate adjourn it be to Monday.

Mr Cass moved an executive session. Agreed to.

At one o'clock the doors were re-opened, and the Senate adjourned till Monday.

In the House. The journal of yesterday having been read, Mr. Duncan of Massachusetts announced the death of his colleague, late Representative in the House, from the Fourth Congressional District of that State.

Mr. Duncan pended an eulogy upon the deceased, for his moderation, intelligence, fidelity to duty, and sincerity as a Christian, and at the conclusion of his brief speech submitted the usual resolution of condolence and regret, and that the members wear crape for thirty days.

Mr Chandler said in the course of his eulogy on Mr Thompson, that he had known him in the Senate Chamber only nine months, but he had had frequent social communion with his heart, which rose to him the seat of manly honest and gentle affection.

The resolutions were adopted unanimously, and as a further testimony of respect, the House adjourned.

Few things are necessary for the wants of this life, but in these an infinite number so perply the distaste of opinion.

Loss of a Keeseng Whaler. A very beautiful clipper-built whaler, rigged as a schooner, was built in Hallowell, or rather in Chelsea opposite steamboat wharf in Hallowell, a couple of years ago by Capt. Job Pierce of that town and others, for the purpose of making a whaling voyage in the Atlantic ocean between America and Africa. She was commanded by Capt. Pierce himself, a most excellent man and officer, who had then just returned from a five years' whaling cruise as commander of a New Bedford ship in the Pacific; he took with him several of his neighbors, amongst whom was a son of his brother Elbridge G. Pierce of Farmingdale, viz., Charles C. Pierce, as captain's son of the Editor's brother viz William Drew of Chelsea, a boy about 16 years old; William F. Underwood of Hallowell, Albert Randall of Vassalboro, and several others of Kennebec origin. She had obtained a cargo of oil and was on her way home, when she was fallen in with a little this side of Bermuda on the 10th of October, by the Bremen bark Anna, bottom up, and with no signs of human life remaining. Doubtless the "Lively"—for that was her name,—was capsized in a gale of wind that occurred two days before, and there can be but little doubt that all on board perished, not one being left to tell the tale! This is sad tidings to this neighborhood, and brings severe affliction at home to many mourning families. [Augusta Banner.

In Preedley's "Practical Treatise on Business," we find the following, under the head of "*How to get Customers.*"

"In the progressive stages of civilization men have held many erroneous ideas, and have been chargeable with much folly, but I am not aware that at any time or in any age, they considered it sufficient to place themselves in one of the main grooves of human affairs and wait for fortune. Mercantile men have certainly never entertained the idea that all that is necessary, in order to do business, is to open a shop or store and stock it with merchandise. To take some means to inform the public of the nature of their business, and solicit their patronage, has ever been a matter of primary importance. In the middle of the seventeenth century, the shop-keepers of London made known their business *viva voce*. The masters or proprietors would take a turn before their doors, crying out 'What d'ye lack, madam?' and then run over a list of the commodities they dealt in, and when tired, the task was assumed by the apprentice thus making the city a Babel of strange sounds.

The Deuteroatic era was succeeded by the age of signs, which genius soon improved ornamented by all imaginable devices. Painting, gilding, boars' heads, flying dragons, and flying swans, were conspicious emblems. As the capabilities of the printing press were developed, shrewd men saw in it a chance to universalize their sign-board." They saw they could place upon it not only their name and number, but a full account of their stock and their range of prices; they saw that they could challenge the attention not only of those who passed by their store, but of men in all places and at all times. The present is the era of advertising. Advertising is the best mode of *drawing* buyers that it can suggest. By means of it men can sell articles that are valueless, and *make fortunes by it!* Why should not those who have valuable articles to dispose of? An extensive system of advertising is invariably resorted to by those who have trash to dispose of, and it succeeds; how much easier, then to sell a useful and valuable article! *Advertising and politeness* are the main levers to get customers. Advertising will draw them, affability to fill their orders will satisfy them, and politeness will induce them to buy.

The Irish Duke Unbending. Richard D. Webb of Dublin, Ireland, relates, in a letter to the Anti-Slavery Standard, the following anecdote of Wellington:

"In the garden of Walmar Castle, the Duke, one day, saw a young boy, whom he recognized as belonging to the gardners, busily engaged in some inscrutable occupation on the ground. The Duke went close, and looked, but still could not solve the mystery. "What are you about?" he asked, in his point blank way.—"Its a pet toad I'm feeding," said the boy, whimpering. "And they're going to send me to school, and the toad will die. "Never mind school, said the great captain, "I'll take care of the toad." And so he did. The boy went to school, and subsequently received a letter which reported the well being of the toad, in the well-known autograph writing of "F. M., the Duke of Wellington:" Is not that good?"

Gone to Bed. An eminently holy man thus wrote on hearing of the death of a child:—

"Sweet thing! and is he so quickly laid to sleep?—Happy he! Though we shall have no more the pleasure of his laping and laughing, he shall have no more the pain of crying, nor of being sick, nor of dying. Tell my dear sister that she is now so much more akin to the next world; and this will be quickly passed to us all. John is but gone in hour or two to bed, as children used to do, and we are very soon to follow. And the more we put off the love of this present world, and all things superfluous, beforehand, we shall have the less to do when we lie down.

Pray Not for Length of Days. The eulogy of Hon. Horace Binney, upon Hon. John Sergeant, in the Federal Court Room in Philadelphia, is described by the papers of that city as eloquent and impressive in the extreme.

When he had spoken for three-quarters of an hour—slowly and with deep feeling—he turned to his brethren at the bar and said: "Let no man pray for length of days, for the old man is left alone when he has buried all the friends of his youth. It was my grateful and painful duty, three years ago, to pay my last offering of regard to the memory of Chauncey. I now come to pay a like tribute to John Seargeant. This is probably the last time that my voice will ever be heard by my associates of the bar, and I now offer them my last friendly salutations." He sat down, evidently much moved. The room was silent.

Now, "Now," is the constant syllable ticking from the clock of time. "Now" is the watchword of the prudent. Let us keep this little word always in our mind; and whenever anything presents itself to us in the shape of work, whether mental or physical, we should do it with all our might, remembering that "Now" is the only time for us. It is, indeed, a sorry way to get through the world, by putting off till tomorrow saying, "Then" I will do it. No! this will never be.

It is not so great a matter to live lovingly with good natured, with humble and meek persons, but he that can do so with the immoral, with the wilful and ignorant, with the prevish and perverse, he only hath true charity, remembering that solid, true peace of God, consists in being so occupied with in suffering and forbearance, rather than in contention.

The German emigration during the year 1851, exceeded 118,000 souls, and it is calculated that the emigrants have carried away from Germany eighty millions of dollars. They almost universally belong to the substantial class of the population—men of means who do not relish the condition of things at home.

Childhood is like a mirror, receiving and reflecting images. One impious or profane thought uttered by a parent will may operate upon the young heart like a noxious spray of water thrown upon polished iron, staining it with rust, which no rubbing can efface.

☞ Mr. Lanman, in his late interesting publication in the Private Life of Mr. Webster, gives the following specimen of Mr. Webster's poetical powers. The lines were written in London in 1840:

The Memory of the Heart.

It stores up the well learned lore we gain,
We keep them in the memory of the brain;
Names, things, and facts—whatever we knowledge call.

There is a monument longer for them all;
And images in the soul's surface traced
Make slight impressions and are soon effaced.

But we've a page more glowing and more fraught,
In which our friend-ship and our love to write;
The characters more from the soul depart,
We trust them to *the memory of the heart.*
There is no dimming—no effacement here:
Each new pulsation keeps the record clear;
Warm, golden letters, all the tablet fill,
Nor lose their lustre till the heart stands still.

London, Nov 19th, 1839.

☞ A vacant clerkship in the State Department was yesterday supplied by the elevation of Mr. G. Bartle, who has for several years filled the position of Messenger in that Department. The is carrying out the just and salutary principle of promotion by merit now which Mr. Secretary Everett deserves credit. *Nat. Intel.*

Affection, like spring flowers, breaks through the most frozen ground at last: and the heart which seeks but another heart to make it happy, will never seek in vain.

☞ The New York Times suggests that Gen. Pierce pay Mr. Hawthorne for his literary labors in the romance of Pierce's life by giving him a place in the Cabinet.

"Trust in God and Persevere."

BY OLIVER OAKWOOD.

Brother, is life's morning clouded?
Has the sunlight ceased to shine?
Is the earth in darkness shrouded?
Wouldst thou at thy lot repine?
Cheer up, brother!—let thy vision
Look above—see! light is near:
Soon will come the next transition—
"Trust in God and persevere!"

Brother, has life's hope receded?
Has thou sought its joys in vain?
Friends proved false when most needed,
Foes rejoicing at thy pain?
Cheer up, brother!—there's a blessing
Waiting for thee—never fear;
Foes forgiving, sins confessing,
"Trust in God and persevere!"

Brother, all things round are calling,
With united voice, "Be strong!"
Though the wrongs of earth be galling,
They must lose their strength ere long.
Yes, my brother, though life's troubles
Drive thee near to dark despair,
Soon 'twill vanish like a bubble—
"Trust in God and persevere!"

He, from his high throne in heaven,
Watches every step you take;
He will see each letter riven
Which your foes in anger make.
Cheer up, brother—He has power
To dry up the bitter tear;
And, though darkest tempests lower,
"Trust in God and persevere!"

Brother, there's a quiet slumber
Waiting for thee in the grave;
Brother there's a glorious number
Christ, in mercy deigns to save.
Wait, then, till life's quiet even',
Closes round thee calm and clear;
And, till called from earth to heaven,
"Trust in God and persevere!"

BE NOT DECEIVED.

Unprincipled men and ignorant quacks have taken advantage of the great popularity and wonderful cures performed by CURTIS & PERKINS' Chase and Pain Killer, and are extorting large sums of the unfortunate sufferers by the sale of counterfeits of this article. Because the only genuine original Camp and Pain Killer in the world is Curtis & Perkins', as will fully appear by their right secured for the United States; and no other potion in the world will do the work of compounding the genuine article. Avoid all spurious and miserable imitations, or you may take poison instead of Pain Killer. Purchase of our authorized agents. Be sure you get the genuine Curtis & Perkins' Camp and Pain Killer, and you will be positively sure of relief from pain, and a speedy cure.

CURTIS & PERKINS.

Bangor, Sept. 22, 1852 1y

EVERY FAMILY should at once procure a bottle of the great Arabian remedy for man and beast, called G. G. FARRELL'S ARABIAN LINIMENT. It always the most intense pain in a few minutes, restores the synovial fluid or joint water, and thus cures ruptures, it penetrates the flesh to the bone, relaxes contracted cords, cures rheumatism and palsied limbs of twenty years standing, also tumors, swelled neck, enlargement of the glands, and is the best medicine for ailments of cattle ever discovered, curing sweeny, spavin, splint, and all diseases which require an external application.

Sun Pain of 10 years' standing cured by H. G. Farrell's Arabian Liniment.

Mr. H. G. Farrell—Dear Sir: I had been afflicted with the "Side Pain" for the last ten years, and could never get relief except by bleeding, but by the use of H. G. Farrell's Arabian Liniment, applied over the temples about three or four times a day, it was entirely removed, and I have felt nothing of it since. I went into the stable one night, to apply it to a horses' sore leg, and being very dame he struck him and fell against my leg, crushing and bruising them so badly that they turned black as my hat, rendering them powerless. I applied your Liniment, and was well enough in a few days to go about again as usual. I also crushed my finger in a shocking manner, by letting a heavy log fall upon it, your Liniment soon healed it up, though

JOHN R. MAGEE.

La Salle precinct, Peoria co., Ill., Feb. 6, 1849.

Last Barter, of West Canton, Ill., says:

Mr. H. G. Farrell's Arabian Liniment has cured some bad cases here, which every other remedy had failed to, one was a white swelling and contracted cords in the leg of a boy twelve years old. The leg had withered away, and was so contracted that he had no use of it. Three doctors had tried their skill upon it in vain, and he was *fast making to the grave*, when the boy's father was induced to try H. G. Farrell's Arabian Liniment. Before the first bottle was used up he came to Mr. B's store, and the first words he said were, "Mr. Barker, I want all that Liniment you had here in the store, the one bottle I got did my boy more good than all that had ever been done before!" That boy is now well and hearty, and has free use of his legs. It is good for sprains, bruises, cuts, burns, and swellings.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 12 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's name—H. G. FARRELL'S—and all signatures on the wrappers, all others are counterfeits.

LOVETT'S WHIPENE.

Will, without doubt, change Gray Hairs to the original color; cure Baldness, remove all Scurf and Dandruff, and other diseases of the Hair and Scalp.

CAUTION!!

I caution the public against buying an article called "Improved Whipene," for several of the said article has been put up, and the name "plagiarized," to deceive the public and injure the character of the true "Whipene", thinking to get off his spurious article under the wide spread reputation of Lovett's. GEO. W. EMERSON, Druggist, No. 4 Smith's Block, is my only authorized agent in Bangor, of whom the genuine Whipene may be obtained at wholesale or retail, at my prices. H. T. LOVETT, N. Y., Prop.

☞ DIGEST.—Such is the true meaning of the word "DIGESTIVE," or of the two Greek words from which it is derived. This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE, prepared by Dr. J. S. HOUGHTON, of Philadelphia, from the fourth Stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach. No art of man can equal its curative powers. It renders GOOD EATING perfectly consistent with HEALTH. See the Agents of the Ox, in another part of this paper.

The Celebrated Indian Doctor, JOS. SAUKABASIN,

HAVING availed himself of the medical knowledge of the tribes who he composed the original inhabitants of this country, and having by upwards of twenty years experience gained a knowledge of the most perfect combination of the vegetable substances which act the growth and natural remedy for the diseases of the climate, effects his services in all disorders. He has in his possession a great number of certificates, testifying to the powerfully beneficial and often sudden effects of his medicines. From a very large number of certificates he selects the following

Bangor, July 3, 1848.

To whom it may concern:—This will certify that I had a very severe attack of the Rheumatism in my hip. I tried various means to cure it, but it grew worse and worse for about three months, when I applied to Dr. JOSEPH SAUKABASIN, one of the Penobscot tribe of Indians, who cured me entirely and in a very short time, and I have never been troubled with it since. And I feel it due to him to give my testimony to recommend him as a kind and skillful physician. BENJAMIN SNOW

This will certify that I was afflicted for over thirty years with a Scrofulous humor in my leg, and I applied to four or five physicians, and got no relief until I fell in with JOSEPH SAUKABASIN, and he gave me one bottle of medicine, and cured me so of the troublesome sore, and is healed perfectly sound. My daughter Hannah was afflicted with a Cough, and spitting of Blood, and by the same medicine was cured. SYLVANUS COOMBS

Camden, August 15, 1852.

Holden Dec. 3, 1852.

Dr. Jos Saukabasin—Dear Sir I feel it a duty to give you my best thanks for curing my wife of a disease of long standing—a dropsical complaint—and I believe if it had not been for your medicine she now would have been in her grave. ANDREW L. PINKHAM

I December 7th, 1852—I feel perfectly satisfied that Dr Joseph Saukabasin has cured my boy of a fever sore, which all other doctors gave him up. NATHAN DYER

Self Acquired Fame!

DR. JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS Wonderful Medicine, notwithstanding it has never had the advantage of newspaper notoriety, has yet acquired a higher and surer extent of popularity than any other similar compound in the world. It is entirely of vegetable extraction, perfectly safe to be administered even to the most delicate child and does astonishing and satisfactory effects upon man or beast. To those unacquainted with this invaluable medicine we say, give it a fair trial, and we promise you a cure in all cases of Coughs Colds, Asthma, Bronchitis, Whooping Cough, Influenza, Spitting of Blood, and all Lung Complaints, Chronic Diarrhoea, and Dysentery in all of which cases it should be used internally. The effects of its external application in cases of Rheumatism, Spinal Diseases Sprains, Stopped Blood, Bruises, Burns, and all descriptions of wounds, are magical. Persons troubled with Cramp in the Stomach, Sick or Bowels, Sore Throat, Piles, &c by a combined internal and external application of this Anodyne, cannot fail of a certain and speedy cure. The proprietor can produce volumes of testimonials in its favor, but prefers to let it carry its own recommendations, as it has done for forty years past. We ask no one to use it after an unsatisfactory trial. In its composition it unites several of the most penetrating and searching agencies known to the materia medica—the discovery of this article was in the constant and successful practice of medicine for more than twenty years.

This is to certify that having been troubled for a number of years with a distressing cough, attending at times with raising no benefit from medical aid, in 1848 was so all appearance in the last stage of consumption My legs swelled so that I was unable to stand or help myself. At that time your Liniment was providentially recommended to me, and by the use of three or four bottles I was entirely cured, and have been able to labor every day; I have also for the last twenty years been subject to severe attacks of bloody dysentary, and never found any permanent relief until I took your Liniment, to which I have had no return of this complaint. As well as I think your Anodyne Liniment was the means of saving my life. JOHN TAKINS.

Dover, Sept 20, 1852.

Dr Johnson: Dear Sir—In consequence of having a sore cut on my leg, it became entirely stiff at the knee. It was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment, and by using three bottles, my leg was thoroughly healed, and for a number of years I have been able to use it about as well as the other. I consider myself indebted to the use of your Liniment, (though by the blessing of Providence, for the use of my leg, and would say to others who may need help in this way, try it and no doubt you will be cured.

The following certificate from Dr Johnson of Boston, was given 16 years since and is as true as ever.

BOSTON, January 1, 1836

Having had occasion to observe that numerous persons afflicted with Hernia, have suffered much from the want of a skillful workman in constructing Trusses to the proper shapes of the body, I have taken pains to inform myself of the competency of Mr. J. F. Foster, to supply the deficiency occasioned by the death of Mr Beale. After some months of observation of his world, am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the various cases which occur. I feel called upon to recommend him to my professional brethren, and the public as a person well suited to supply their wants in regard to those important instruments.

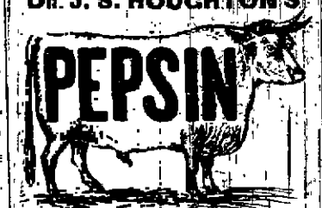
Entered according to Act of Congress in the year 1851, by J. S. HOUGHTON, M. D. in the Clerk's Office of the District Court of the Eastern District of Pennsylvania—

ANOTHER SCIENTIFIC WONDER!

A GREAT CURE FOR DYSPEPSIA!

Dr. J. S. HOUGHTON'S



THE TRUE DIGESTIVE FLUID,

OR

GASTRIC FLUID.

Prepared from the fourth STOMACH OF the CARON LIEBIG, by J. S. HOUGHTON, M. D. Philadelphia.

The true meaning of word PEPSIN is the Digestive Agent, or Grand Dissolving Principle of the Gastric Fluid. It is extracted from the stomach of the Ox, forming a TRUE Stimulating Agent of the Digestive Fluid. It is identical with the natural Gastric Juice, and therefore is a complete substitute for all cases of Indigestion, and Debility, arising from whatever cause, and furnishing a complete

REMEDY for an unbelief in the use of ALCOHOL, BITTERS, ACIDS &c. It is extremely agreeable to the most delicate stomach, while in the most feeble patients it restores digestion in a few days. In all cases of DYSPEPSIA, Pepsin is NOT A DRUG,

But a true Solvent of Food, differing in no respect from the Gastric Juice of Human Beef, in about the proportion of one part Pepsin to four parts Beef.

EXTRAORDINARY EVIDENCE.

The following letter from Dr Johnson, upon which this remedy is based, is one of the most Curious and Remarkable cases of Scientific Research on record. Dr Combe's Physiology, Dr Combe's Physiology on Food and Diet, Dr Pereira, Professor of Materia Medica in University College, London, together with reports of cases published in the United States

DR. MORSE'S INVIGORATING CORDIAL!

FOR GENERAL DEBILITY, IMPOTENCY, INCONTINENCE, ORGANIC & SEMINAL EMISSIONS &c. The astonishing success which has attended the invaluable medicine, the *Lost of Muscular Energy, Physical Lassitude*, and *General Prostration*, or any of the consequences of youthful indiscretion, or manhood, so fearfully prevalent in these days, renders it the most valuable preparation ever discovered. In fact as a remedy for the above complaints it stands unrivalled and alone. There is no other suitable remedy, as any one has sufficiently received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION, of which this medicine is composed has been tested and its virtues pronounced by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS HEAD and WEAKNESS, and the mental physic so long sought for, and never before found, the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION EXCITEMENT, incapacity to study or business, loss of MEMORY, Blushing, Trembling, Fear of Death, Destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Seminal Excesses, or evil practices to which is too frequently the case with the young. It has been said by some that these disorders, emissions, &c., were incurable. This however is not the fact.

DR. MORSE'S INVIGORATING CORDIAL, does, and is constantly curing these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names preserved will conclusively show:

Dr. Wood, one of the Massachusetts Insane Hospital, writes of one of his patients being cured by using this cordial, thus:—"It gives me pleasure to inform you that one of my patients, while in Boston procured some of your Cordial. He tells me that he has used about eight gallons, and he recommended taking it, when before he had but two or three weeks." When he applied to me, says Dr W "I thought it hardly possible for him ever to regain his full strength." I prescribed the usual medicines, without success in the hospital, but they had no effect. On the meantime he purchased some of your Cordial, which has effected a cure. I am sure no other medicine would. I shall ever recommend it whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to render the publication of certificates of course out of the question, and the proprietor could publish those of the most conclusive testimony to show that the great reputation it enjoys would scarcely be obtained, but is firmly based upon its positive and undeniably mild virtues. In all diseases where it is recommended taking, where no benefit is derived, the money will be refunded. Numerous certificates could be published of the most astonishing cures, effected in cases of Fever and Ague, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE MEDICAL JOURNALS

have not, in a single instance that has been authenticated, given their sanction to any other preparation for the above complaints. It has, in many instances, and desperate cases, effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION

Of those who have used this Extract is "I had heard your Cordial highly spoken of, but was one of the incredulous to regard half it merited, having tried various medicines sold for the same purpose, (all of which were worthless) without deriving any benefit. I had given up in all hopes of obtaining relief, when I purchased your Cordial. I had not taken two bottles before I found myself relieved, and am now in the enjoyment of health, which I had not before for many years. I would recommend all who are afflicted to try it, as I am confident it will do them more good than all the medicine they have ever taken."
